# WE CREATE SUSTAINABLE VALUE TODAY AND TOMORROW

As a young team, we intrinsically value the protection of our planet and our shared future. In our role as a developer of tech products, we bear direct responsibility for our products and the resulting societal consequences.

For us, sustainability is a holistic concept that takes equal account of environmental, social and economic aspects. We have aligned our strategy with the Sustainable Development Goals of the United Nations Global Compact and are working with specialized partners to realize them effectively.

We regularly assess the impact of our company actions and develop targeted measures to achieve our climate goals and enhance social justice. All our suppliers are carefully selected by third party verifiable, high social standards. We have set an internal carbon price of €50 per tonne that is increased yearly. This enables us to support international projects targeting climate protection and biodiversity.

Our progress can be viewed at any time at [vonmaehlen.com/sustainability](https://vonmaehlen.com/sustainability).

Sustainability is a matter of mindset. Transparency, accountability and frequent communication are therefore the cornerstones of our strategy.

# TRANSPARENT CASE

THE PHONE CASE WITH ANTI-YELLOWING PROTECTION

Transparent Case is our invisible phone case. In addition to providing camera and screen protection, this transparently designed phone case also offers long-lasting anti-yellowing and edge protection.

Furthermore, it is seamlessly compatible with MagSafe accessories. Protect your iPhone stylishly and functionally with Vonmählen's Transparent Case.

This product contains 48% GRS certified recycled post-consumer polycarbonate (PC),  
39% GRS certified recycled post-consumer polyurethane (TPU),  
certified by Intertek 223894

# ECO SILICONE CASE

THE SUSTAINABLE MAGNETIC SILICONE CASE

Eco Silicone Case is our silicone protective case designed for your iPhone, now crafted for the first time from 69% GRS-certified recycled materials.

The flexible material provides shock-absorbing qualities, and the raised edges around the screen and camera deliver optimal protection for all sensitive components. Precise microphone cutouts and silicone buttons ensure seamless operation, while the soft silicone surface enhances the overall user experience. The interior features a super-soft microfiber lining for additional protection. Despite its robust protective features, the case remains thin and lightweight.

Powerful magnets provide a secure grip, allowing for seamless compatibility with MagSafe-enabled accessories at any time.

This product contains 49% GRS certified recycled post-consumer polycarbonate (PC),  
20% GRS certified recycled post-consumer silicone,  
certified by Intertek 223894

# SCREEN PROTECTOR PRO

THE MOST ADVANCED DISPLAY PROTECTION

Screen Protector Pro is our most advanced display protection, designed for maximum protection of your screen.

Moreover, the glass is made from 76% GRS-certified, recycled materials. It is composed of triple-hardened, ultra-thin aluminosilicate glass, known for its unparalleled break resistance while maintaining high flexibility. Rated MOHS6 on the hardness scale, it guarantees robust protection, even against hard impacts and scratches. Screen Protector Pro passes the drop test with a 18kg metal ball falling directly onto the screen, thus demonstrating exceptional shock resistance.

With the included installation kit, you can perfectly apply the screen protector to your device, free of dust and bubbles.

This product contains 47% GRS certified recycled post-consumer polycarbonate (PC), 29% GRS certified recycled pre-consumer Glass, certified by Intertek 223894.

# THIN CASE

FOR AIRPODS

Thin Case is our minimalist-designed, ultra-thin protective cover for your AirPods.

Despite its lightness, it offers reliable all-around protection and effortlessly passes drop tests from a height of 2 meters. Of course, you can continue to wirelessly charge your AirPods without having to remove them from the case. The matte finish makes the case a real pleasure to hold, ensuring a comfortable, non-slip grip.

Made from 98% GRS-certified, recycled materials, it makes a strong statement for responsible resource management.

This product contains 98% GRS certified recycled post-consumer polycarbonate (PC), certified by Intertek 223894

## THIN CASE

FOR APPLE WATCH

Thin Case is our minimalist-designed protective cover for your Apple Watch. It stylishly protects your watch while maintaining the original Apple design.

Equipped with hardened glass (H9), the cover reliably protects against scratches and impacts. A special silicone lip prevents water from penetrating between the watch and the case. Navigating with Thin Case feels just as natural as on the original display, ensuring that interaction with your watch remains precise and pleasant.

Attaching the cover is a breeze thanks to the simple one-click mechanism. Enjoy daily protection while preserving the elegance of your Apple Watch.

This product contains 50% GRS certified recycled post-consumer polycarbonate (PC), certified by Intertek 223894

# BACKFLIP® PURE

THE PHONE GRIP

Backflip® Pure is our phone grip that always keeps your phone safely in your hand. It is rotatable by 360° and is therefore suitable for both left-handed and right-handed individuals. Thanks to the integrated kickstand function, you can stream your favorite series anytime and anywhere. To wirelessly charge your smartphone, Backflip® Pure can be easily detached. The magnetic mount for vertical surfaces – the Dot – is included and allows you to attach your smartphone where you need it.
